

CPDLC DCL Services

REPLACES PDC on CPDLC EQUIPPED
AIRCRAFT at DESIGNATED AIRPORTS

DO

- Use ATC key to logon to airport (e.g. KIAH). Enter complete flight ID (e.g. SWA1234) and complete tail number (e.g. N12345)
- Look for LOAD prompt on all messages
- LOAD prompt indicates a revised route to an existing position or a full reroute
- Review entire route and any amendments on RTE & LEGS pages
- Reinsert RWY/SID every time a route is loaded from CPDLC
- Respond with either "Accept/Reject"

DON'T

- Don't use ACARS ATS to request clearance
- Don't make multiple requests
- Don't use free text in any message

ALWAYS CLARIFY VIA VOICE IF THERE IS CONFUSION

FAA NextGen Data Communications Program
